Sales:

Technical Support

PC Win Booster Free do not require any professional knowledge. If you experience any problem or have a question, please refer to the **PC Win Booster Free Help**. If you cannot find the solution, please contact our support staff.

Note: only registered users receive technical support

PC Win Booster Free provides several forms of automated customer support

Soft4Boost Support System

You can use the **Support Form** on our site to ask your questions.

E-mail Support

You can also submit your technical questions and problems via e-mail to support@soft4boost.com

Note: for more effective and quick resolving of the difficulties we will need the following information:

Name and e-mail address used for registration System parameters (CPU, hard drive space available, etc.)

Operating System

Detailed step by step describing of your action

Resources

Documentation for PC Win Booster Free is available in a variety of formats:

In-product (.chm-file) and Online Help:

You will be able to use help file (.chm) through the **Help** menu of the installed **S4B PC Win Booster Free**.

Online Help include all the content from the In-product help file and updates and links to additional instructional content available on the web. You can find the **Support** at our web-site - http://sorentioapps.com. Please note, that the most complete and up-to-date version of **PC** Win Booster Free help is always on the web.

PDF Documentation

The offline help is also available as a pdf-file that is optimized for printing. PDF help file is available for download at the program page at **Soft4Boost** web-site. To be able to read and print **PC Win Booster Free** PDF help file you will need to have a PDF reading program installed.

User Guides

You have access to a wide variety of resources that help you make **PC Win Booster Free**. The step-by-step user guides will be of help not only to the novice users but also to the users that face a certain task to be performed and look for a way to do it. Please, visit our **Support** section of **Soft4Boost** web-site at to read the detailed instructions for various software and tasks.

Technical Support

Visit the **Support** at our web-site **http://sorentioapps.com** to ask your questions concerning **PC Win Booster Free** installation, registration and use. Feel free to also use our e-mail address **support@soft4boost.com**

Downloads

Visit the **Downloads** section of our web-site to find free updates, tryouts, and other useful software. We constantly update the software, new versions of the most popular programs and new software are also frequently released.

Overview

PC Win Booster Free is a free disk utility designed to help you keep your disk clean by removing any unnecessary folders and files. Usually, these unnecessary, or junk files appear as a result of program's incomplete uninstalls, Temporary Internet Files, Recycle Bin Files, Unused Empty Folder, Uninstall programs and search File Duplicates. **PC Win Booster Free**, with its intuitive and easy to use interface, helps you quickly wipe out all the junk files. Using the program is indeed easy. It also works fast when both scanning for files and removing files.

Using PC Win Booster Free you can quickly and easily perform the following tasks:

-Remove the information that is no longer in use, left behind after incomplete uninstallation or incorrect removal of software, or used for a malware activation.

- Get rid of unnecessary temporary files created by different applications and the operating system itself.

- Delete the web browser temporary data called cache.
- Remove shortcuts that refer to invalid locations.
- Empty Recycle Bin instantly.
- Remove unused empty folders.
- Search file duplicates.
- Search and remove toolbars for Windows browsers.
- Uninstall programs.

To start PC Win Booster Free go to Start menu and choose All Programs -> Soft4Boost -> PC Win Booster Free -> PC Win Booster Free

Program Interface

PC Win Booster Free interface is quite simple to use and lets the user perform all the actions with a few mouse clicks. The program **Main Window** looks the following way:

🤰 PC Wir	n Boos	ster Free					- D X
		Soft4Boost programs without ation only for \$ 39.95 !		Uninstaller	90 Settings	Ŧ	(j) About
Sca	n cate	egories:					Stop
1	0	Temporary Internet Files	1	5903 files found	details		Scanning
	4	Unused Empty Folders	Not	scanned			Ŧ
	61	Junk Files	4	429 files found	details		
<u>v</u>	3	Broken Shortcuts	~	1 files found	details		-
1	0	Recycle Bin	4	9 files found	details		Fix Problems
1	*	Toolbars and Extensions	-				
Mozilla F	irefox						

Use this button to open the Settings window to change the program settings.

Use this button to open the **About the Program** window displaying the information on the program current version and the end-user license agreement.

Use this button to open the **Duplicate Finder** window to search file duplicates.

Use this button to open the Uninstaller window to remove installing programs.

The Status Area lets the user see date and time when the last scanning and fixing were made and know whether scheduling is enabled or not.

The **Category/Result Area** initially contains the list of available categories to scan within. It also displays the found problems in details if the scanning has been performed.

Scanning and Fixing: Overview

The scanning is a fully automated process. This means that the program will do everything itself. But before scanning you should choose categories that will be included into the scan process. Available categories are:

> Temporary Internet Files Unused Empty Folders Junk Files Broken Shortcuts Recycle Bin Toolbars and Extensions

After choosing the categories to scan, click the **Start Scanning** button to initiate the scan process. Once the scanning is over, a result of the found problems will be displayed in the **Category/Result** area. To fix the found problems, click the **Fix Problem** button:

Note: objects currently scanned within a category are shown in the left bottom corner of the Main Window

Temporary Internet Files

The **Temporary Internet Files** category lets scan the special folders used, mainly, by the Internet Explorer browser for storing the cache of web page contents, history of visited pages and cookies.

Before fixing the discovered problems (deleting the browser temporary data), click the **details** link to see all them in particulars:
